KENOSHA HARBORMARKET • KENOSHA WINTER HARBORMARKET

Supplemental Nutrition Assistance Program (SNAP) FoodShares CLIENT INFORMATION for Kenosha HarborMarket

If you have questions, please email info@kenoshaharbormarket.com

By facilitating the use of EBT (Electronic Benefits Transfer) payments between vendors and customers, all of our Market vendors who sell eligible food products can now supply fresh, nutritious foods to families receiving SNAP benefits. The information listed below is limited to items specifically sold by vendors at Kenosha HarborMarket and Kenosha Winter HarborMarket. The complete list of eligible items can be found at: www.fns.usda.gov/snap/eligible-food-items. Participation by Market vendors is voluntary. Some vendors will choose not to participate even though they sell eligible foods. Look for the sign, "We Accept FoodShares" or just ask.

How it works: Come to the Information booth, located in the middle of the market.

HarborMarket board members or staff will process your EBT card, and give you wooden nickels worth \$2 each. Purchase eligible foods in exactly \$2 increments, (\$2, \$4, \$6) OR you may pay cash for any portion of the purchase that is over a \$2 increment, but less than the next higher increment. **Please note:** It is against the law to pay for food with our wooden nickels, and receive change in cash. Our wooden nickels are pictured below. They cannot be used at any other market. We suggest purchasing only the number of wooden nickels you will use immediately. You may save them for use at a later date, but you will not be reimbursed for lost or stolen wooden nickels. Treat them like cash. Households CAN use SNAP benefits to buy: Foods for the household to eat at HOME, such as: breads and cereals fruits and vegetables meats, fish and poultry dairy products garden seeds and plants which produce food for the household to eat. "Luxury" foods (like steak, donuts) are still food, so they are okay to buy with SNAP. Households CANNOT use SNAP benefits to buy: ANY nonfood items, such as: pet food, soaps, lotions, paper products, household supplies, vitamins, medicines, alcohol, goods meant to be eaten at the Market and prepared hot foods meant to take home. Generally, eligible foods are those that are meant to be prepared and consumed at home.
